## About Cranberry Township Parks & Recreation Pickleball:

Ground was broken on the pickleball facility in UPMC Passavant Sportsplex at Graham Park in 2017. Since then, the facility has expanded to 19 courts and more than 1,900 members, to allow for nighttime play during warm months and indoor play via an inflatable dome during winter months. The main reason why people become members is for our "level play", that helps assure a much better and enjoyable game. The ability to schedule your play without the courts being overcrowded, that our events are coordinated with someone in charge at the courts and the ability to improve your game.
